Conference slated

FOR THE fourth time, the Asia Pacific Association for Fiduciary Studies (APAFS) will conduct its annual Pacific Region Investment Conference (PRIC) in Manila later this year. The PRIC is a highly esteemed investment conference where financial executives and professionals as well as members of fiduciary institutions converge to learn from world-class experts and gain regional understanding of current economic issues. "Manila is the ideal venue for the PRIC because of the Philippines' strategic location in the region. It is a central place where delegates from countries such as Singapore, Taiwan, Hong Kong, Guam, and Indonesia can meet," said Daniel Roland, CIMA, executive director of APAFS. The 9th PRIC is slated in October this year. For updates or inquiries, log-on to www.apafs.org.
